

Cuisine Map

Beautiful fields of flowering crops, fresh produce direct from the sea and forests filled with gold. Canola, potatoes, turnips and other root vegetables. Berries and mushrooms, herring and pheasant. Trelleborg is surrounded by what is known as Sweden's bread basket, and where the best raw ingredients are found, so are the best chefs. Take a seat at a beautifully set table and let yourself be spoilt, buy raw ingredients and local products to take home with you, or enjoy a handcrafted pizza or a simple cup of coffee. Our cuisine map will show you where you can fill both your glass and your plate.
